

SUBJECT: STRUCTURAL ENGINEER EMPLOYMENT POSITION

Krudwig & Associates, Inc. is a dynamic and growing structural engineering consulting firm currently seeking candidates for a structural engineer to join our team. BS in structural engineering required, with MS preferred. EIT registration is required, with PE registration preferred. Candidates should have 2 to 10 years of experience in the structural design of buildings.

Successful candidates should have experience designing with concrete, steel, wood, masonry and light gauge metal framing in accordance with ASCE 7 and the IBC. Familiarity with renovation, non-building structures, and seismic evaluation of structures is a plus. Candidates should have experience as the primary design engineer on smaller projects in addition to working with a team of other engineers and drafters on larger, more complex projects. Familiarity with REVIT preferred.

Responsibilities include:

- Designing and detailing projects
- Developing and organizing construction drawings
- Managing drafter work flow
- Site visits
- Communicating with clients

We offer competitive pay (commensurate with experience and skill) and a great working environment.

Please include a cover letter that briefly discusses why you are interested in this position, why you are best qualified and salary requirements.

Our projects primarily involve commercial buildings including office buildings, medical facilities, hospitality, retail buildings, churches, distribution centers, industrial facilities, and schools. Projects may include both new construction and existing renovation and restoration. To find out more about our firm, please visit us at www.krudwig.com.

Applicants that meet the above qualifications should send their cover letter, resume and references to Missy Krudwig at mkrudwig@krudwig.com.
